

## Annual Seminar: The Greenland Ice Sheet

Where: Center for Ice and Climate, room 235.  
Juliane Maries Vej 30, 2. floor, 2100 Copenhagen  
When: January 10, 2013, 9:00-12:30.

The annual meeting between research groups in Denmark working on the Greenland Ice Sheet is an informal network meeting. Each group presents current work and ongoing activities of interest in order to stimulate discussions and collaborations. All are welcome. Please distribute the invitation to potential participants.

Contact: Christine S. Hvidberg (email: ch@nbi.dk)

### Program:

9:00	<b>Welcome</b> by Christine Hvidberg (CIC)
9:05	<b>DMI:</b> Marianne Sloth Madsen: Coupling PISM and EC-Earth with a focus on the ocean Christian Rodehake: PISM runs of the Greenland ice sheet Peter Lang Langen: Daily SMB maps of Greenland Kristian Pagh Nielsen: Albedo experiments in high resolution runs over Greenland
9:35	<b>DTU-Space (geodynamics):</b> Valentina R. Barletta: GRACE, GIA, and IMBIE. Joanna Levinsen: ESA Climate Change – ice sheets.
10:00	<b>GEUS:</b> Signe B. Andersen, NN and Jason Box: - Update on activities and results. - Introduction of new professor at GEUS
10:30	Coffee and Cake
11:00	<b>Center for Ice and Climate, NBI:</b> Dorthe Dahl-Jensen: Eemian interglacial reconstructed from the NEEM ice core Nanna B. Karlsson: Observations of englacial structures in NE Greenland from radar data
11:30	<b>DTU-Space (geodesy):</b> Abbas Shfaqat Khan: Update on activities.
11.50	<b>National History Museum:</b> Kurt Kjær, Kristian Kjeldsen and Anders Björk: - Mass-loss of the Greenland Ice Sheet since the little Ice age maximum - Holocene history of the Helheim glacier - X_centuries - a new research project in southeast Greenland
12:20	<b>Discussion</b> Email-list. Next annual seminar. Network activities...
12:30	<b>Closing</b>
12:30	Lunch in the Biocenter canteen (self-funded)
