

Program for the Annual Greenland Ice Sheet Seminar

Time: Thursday, January 8, 2015, 9:00-15:00

Location: DTU, Meeting room #1 in building 101

The annual meeting between research groups in Denmark working on the Greenland ice sheet is an informal network meeting. Each group presents current work and ongoing activities of interest in order to stimulate discussions and collaborations.

The afternoon is dedicated to presentation of field work plans for 2015 and for continued group discussions on various topics if relevant.

9:00	Welcome by Louise Sandberg Sørensen
9:05	Center for Ice and Climate: Dorthe Dahl-Jensen: History of the Greenland ice sheet Nanna Karlsson: Fast flow velocities observed for 5 Greenland outlet glaciers
9:35	DTU-Space (geodynamics): Joanna Levinsen: A new DEM of the GrIS from laser and radar altimetry Sebastian Simonsen: Various GrIS activities. Louise Sandberg Sørensen (on behalf of Jørgen Dall): Velocity fields of Ice Sheets and outlet glaciers
10:05	GEUS: Signe Bech Andersen: Overveiw of GEUS activities Jason Box: Contemporary Greenland ice surface climate interactions
10:35	Coffee and cake
11:00	Natural History Museum Anders Bjørk/Kristian K. Kjeldsen: Greenland activities
11:30	DMI: Ruth Mottram: Greenland activities
12:00	DTU-Space (geodesy): S. Abbas Khan: NEGIS and Jakobshavn Isbræ mass changes
12:20	Discussion and wrap-up: Next year's hosts etc.
12:35	Lunch in the DTU canteen (self-funded)
13:45	Presentations of field work activities 2015 Dorthe Dahl-Jensen: EGRIP traverse and field plans 2015 Christine Hvidberg: Renland project and field plans 2015 Louise Sandberg Sørensen: PROMICE 2015 ... and others...
15:00	Close
